

Professional experience

Songkick

December 2015 - Present  London, UK

Tech Lead (March 2017 - present)

- One of my main responsibilities as a Tech Lead is leading a team of four developers as we update the logic of one of Songkick's core internal services. This will help drastically improve the quality of our data.

Software developer (December 2015 - present)

- Worked in several different product teams across our stack.
- Ruby on Rails, JavaScript, AWS, TDD.

Indra Sistemas

October 2013 - June 2014  Madrid, Spain

Software Development Intern

- Programming a Power PC in a Remote Control Box (RCB) for its communication with a transponder, directed at its implementation in IFF radars (identification Friend or Foe)

Education

University College London

September 2014 - September 2015  London, UK

MSc in Computer Science (1 year program)

- Distinction in taught component  88.5%
- Dissertation on "Genetic Algorithms in the search for optimal Kuhn Poker strategies"

Universidad Autónoma de Madrid

September 2009 - January 2014  Madrid, Spain

BSc in Mathematics (4 year program)

- Overall grade of Notable  72%
 - Distinction in the BSc Thesis  90%
- "Applications of the Cantor Set in Topology and Functional Analysis"

Languages

Additional information
